

# EnviroShelf

## Recyclable Bookcases

### Sturdy

**EnviroShelf** Bookcases are designed to support full rows of books for extended periods of time.

### Lightweight

**EnviroShelf** Bookcases are much lighter than their wood competitors. The standard 34”h x 24”w x 11”d shelf weighs less than 12 pounds.

### Inexpensive

**EnviroShelf** Bookcases are the most economical solution to storing books, DVDs and anything else you can think of.

### Recyclable

**EnviroShelf** Bookcases are made with Fibre/Core®, a revolutionary structural material comprised of corrugated and solid fibre paperboard. Fibre/Core® is produced using recycled materials and can be further recycled along with other paper products .
